THERE'S MORE TO L♥VE AT TINLEY PARK – PARK DISTRICT

TINLEY PARK
PARK DISTRICT

REMEDIATE 280
June 2024

Summer is well underway, and so are our efforts to move to the next phases of the state-funded vacant property cleanup.

We are diligently working through the bidding process for the removal of asbestos and other wastes on the property and the demolition of buildings. Bids were opened publicly on June 3, and each is being reviewed carefully to ensure we are selecting the most responsible contractor with the best value for the community.

Once the contractor is selected, we will update the community as to when and how the work will proceed.

Cleanup Efforts

The safe removal of asbestos and other wastes must be done before we move to demolish buildings on the property. Please note that we will take many precautions to ensure the community's safety during the work. As with every step of this process, cleanup efforts are being overseen by numerous environmental experts and the IEPA.

We understand you may have questions about the work, so we've posted a helpful**guide of frequently asked questions** to address these issues and more.

Your Feedback

Our community Remediate 280 Committee continues to convene monthly to discuss the state-funded clean-up process of all 280 acres of the property. Find the schedule on our **website**.

Updates

You can find updates and information on **our website** and through our social media channels: X @TinleyParkFUN and Facebook at **www.facebook.com/tinleyparkFUN**.

We are so proud to be turning this blighted property into another reason to love Tinley parks! Our Board of Commissioners, Donald Cuba, Bernie O'Boyle, Lisa O'Donovan, Ashley Rubino, and Marie Ryan, have shown outstanding leadership to get us to this point.

Wishing you a happy and safe July 4th!
