Public Comment -Budget and Appropriations:

A resident asked why Commissioner Rubino is attending remotely.

Attorney, Burt Odelson explained that there is a policy that most park districts and municipalities follow that if a commissioner must be away because of business, the policy allows that the commissioner can participate in the meeting if there is a majority of the board present and they vote to allow her to participate in the meeting.

The resident asked how many meetings she attended remotely. The resident was asked to leave his name, and the executive director will get back to him with an answer.

A resident asked if there is a copy of the proposed budget.

Executive Director, Shawn Roby stated a copy of the Budget and Appropriations Ordinance has been at the front desk for public review since April 17, 2025.

A resident asked about the development plan for the property.

The Executive Director, Shawn Roby, explained that we are still in the remediation portion of the project.

A resident asked if the whole 280 acres will be remediated and will 15 million dollars cover it all?

Attorney Odelson answered the whole 280 acres will be remediated. 15 million dollars will not cover it all, so the district is working on that with the state right now.
