

Tinley Park-Park District 2025-2026 Budget Summary

The 2025-2026 budget is \$31,032,224. The budget reflects the \$15 million state-funded clean-up project of the 280 acres of the former Tinley Park Mental Health Center (TPMHC) site. The \$15 million dollar project is being paid for by a grant provided to the Park District by the Department of Commerce and Economic Opportunity (DCEO).

Excluding this project, the total budget is \$16,606,162, representing a 9% increase over the previous year. The operating budget of \$11,767,612 reflects an 11% increase compared to the last cycle. Due to the Park District's conservative budgeting approach, revenues are budgeted at minimum expected amounts while expenses are budgeted at maximum anticipated amounts throughout this budget.

Figure 1 The TPMHS Remediation Project is not included in the graph to provide a more comparable graph

The single most significant item of the budget is the environmental remediation of the former TPMHC site. In August 2023, legislation was signed into law awarding the former State of Illinois site to the Park District for \$1 in addition to the grant funding to clean up the site. The Park District received a \$15 million grant from DCEO to remediate the environmental hazards and demolish the buildings on the property. The official transfer of the property occurred on February 23, 2024 and the District is in the process of remediation and demolition for the entire property.

As of the end of the last fiscal year, approximately 30% of the allocated funds had been spent, while over 90% had been committed. Billing typically lags by about 30 days and is expected to continue throughout the 2025-2026 cycle. It is anticipated that additional funds will be needed and requested from the State of Illinois.

The next item to point out is that the capital investment total across all funds minus the TPMHS is one of the largest total items in the budget. It represents a total of 29% of the total budget this year, which is down from last year. While we do anticipate spending on capital this year, the spending requests are not guaranteed and are handled on a case-by-case basis. Some of the major capital projects this year are asphalt work on parking lots throughout the District, a renovation of the public teaching kitchen at Bettenhausen Recreation Center, and playground development.

Labor costs remain the largest expense for the District, as is typical for most organizations. The State of Illinois has mandated a minimum wage of \$15 per hour, effective by 2025. Our final major adjustment to meet this requirement took place in January 2025, which should help stabilize labor costs moving forward. Since 2019, we have gradually increased the minimum wage and made other necessary pay range adjustments.

To manage labor expenses, we have reallocated staff costs across various funds, resulting in budget impacts throughout the District. Additionally, in the previous budget cycle, we accounted for two business managers to ensure a smooth transition during the retirement of our previous manager at the start of this cycle.

Another item to point out is that the Park District operates three enterprise funds. Enterprise funds are funded by user fees in the form of memberships, daily fees, concession sales, etc. The three specific funds are the Fitness Center (Fund 04), Tinley Junction (Fund 03) and the White Water Canyon Water Park (Fund 15). Each of these funds are paid for by the users of those services and not supplemented by tax dollars for operations, maintenance and capital.

As a final note, this budget is intended to be interpreted as a roadmap of plans with financial dollars in the fiscal year. Items contained within are planned to be completed when possible and appropriate. Some items may not be completed for various reasons.

Corporate Fund 01

The overall corporate fund increased by 10% compared to 2024-2025 budget numbers. This is the general fund and houses many expenses associated with the Park District that do not have specific fund requirements like the museum, recreation and special recreation funds. Significant changes to the line items are as follows:

Wages, Benefits and Staff Development

Wages, benefits and staff development expenses have increased by 4% in this cycle compared to last year. As in most organizations, labor costs remain our single largest expense. The hiring of two full-time marketing staff members has also contributed to higher Recreation staff costs. Additionally, staff worked to reallocate staffing costs across all funds this cycle, which has contributed to changes in this category throughout the entire budget.

Service Contracts

Service contracts represent the largest increase in the general fund this cycle, primarily due to the reallocation of these expenses. Service contracts cover items such as grass cutting, IT services and other needs. This cycle also includes several one-time costs for planning services, including ADA transition planning, a community survey and master planning services.

Program/Events

The increase in Program/Events is the additional marketing work expected from the addition of two full-time staff in marketing.

Utilities

Utilities have an increase driven primarily by the rising cost of electricity.

Capital & Equipment

The Capital and Equipment section of the budget shows an 11% decrease, primarily due to the removal of asphalt work, which has been moved to Fund 14. Key projects in this fund include the ~~Brickyard~~ teaching kitchen renovation, gym floor resurfacing and various improvements at the Bettenhausen Recreation Center, as well as vehicle purchases, equipment and IT upgrades. Please note that projects listed in the capital categories, as well as most other categories, are not guaranteed to be completed within the fiscal year.

Recreation Fund 02

The recreation fund is budgeted for a 3% increase this cycle, primarily due to capital projects, utilities and equipment purchases. This fund supports the majority of the District's recreation services throughout the year, including programs such as Tot Time Preschool, athletics, senior activities, performing arts, day camps and special events. Significant changes for this cycle include:

Wages, Benefits and Staff Development

Wages, benefits and staff development will remain unchanged from the previous cycle. It's worth noting that, outside of the water park, the recreation fund employs the largest number of seasonal staff, primarily for the summer day camp. Wages for this group have experienced the most significant growth among all employment classifications, driven by state minimum wage laws.

Service Contracts

Service contract costs have increased in Fund 2 due to the reallocation of expenses across the overall budget. The largest costs in this area are related to IT work, software and support, as well as credit card fees associated with program transactions throughout the year.

Program/Events

Program and event expenses are based on anticipated attendance and the costs required to run each program. This includes items such as jerseys for athletic programs and payments to contracted instructors. It's important to note that costs in this fund, particularly in these line items, are only incurred when a program actually takes place, not when programs are canceled. Budget estimates are determined by projected attendance and historical performance of similar programs.

Utilities

Utilities have an increase driven by the primarily by the cost of electricity.

Capital & Equipment

As with most funds, the capital and equipment line items show significant increases for projects identified by staff as necessary additions or improvements. This cycle includes a portion of a vehicle purchase, the addition of a scoreboard at Freedom Park and various upgrades at the McCarthy Park facility.

McCarthy Concession Fund 03 (Tinley Junction)

The McCarthy Concession Fund 03, also known as Tinley Junction, is one of three enterprise funds of the Tinley Park-Park District. Tinley Junction features outdoor batting cages, concession stand and a miniature golf course. The budget for this fund remains unchanged from the previous cycle. Expenses are primarily related to staffing the concession stand, food costs and maintenance of the batting cages, miniature golf course and surrounding grounds.

Fitness Center Fund 04

The Fitness Center fund shows a 36% increase in expenses compared to the previous cycle. As one of our enterprise funds, this budget covers operations, maintenance and capital expenditures at Tinley Fitness. The largest single increase is a \$500,000 transfer from the Fitness Center fund to the general fund for capital purchases this cycle. Fund highlights are the following:

Wages, Benefits and Staff Development

Wages, benefits and staff development costs have a slight increase and will generally continue to grow by annual increases.

Utilities

Utilities have an increase driven by the rising cost of water usage and electricity.

Capital & Equipment

Capital and Equipment expenses show a slight decrease from the previous cycle. The men's room sauna, approved last cycle, will be completed during this cycle. Other planned projects include reworking the front desk area at the fitness center and replacing carpet tiles in the upcoming cycle.

IMRF Fund 06

The IMRF fund is slightly reduced based on the previous cycle. Additionally, our funding rate has continued to decrease each year based on the actuarial calculations, which lowers the percentage of total wages that must be paid as an agency.

Liability Insurance Fund 07

The liability fund has a 14% increase for the upcoming year. Insurance costs have continued to rise each year for all areas of the economy, including for the public sector. It will continue to increase from year to year moving forward.

Special Recreation Fund 08

The Special Recreation Fund has increased by 10% compared to last year's budget. The primary driver of costs in this fund is the cooperative payment to the South Suburban Special Recreation Association (SSSRA). SSSRA, owned by its 10 member districts, provides all special recreation services for the participating districts.

As many taxpayers are aware, the Equalized Assessed Value (EAV) of property in southern Cook County was recently reassessed, resulting in a 30% increase in our EAV. Since our payment to SSSRA is based on the District's assessed value, this led to a 27% increase in our payment to the association.

Social Security Fund 09

The Social Security Fund has a 16% increase for this cycle. Ongoing increases in minimum wage and adjustments to salary ranges continue to drive up Social Security costs each year and are expected to do so in the foreseeable future. As a reminder, Social Security is funded by staff wages up to the annual wage cap. Therefore, as wages and/or hours worked increase, the amount contributed to Social Security also rises.

Museum Fund 10

The Museum Fund is projected to increase by 28% this fiscal cycle. Key highlights include the potential replacement of the lift at the Vogt Visual Arts Center (VVAC), installation of additional security devices and exterior improvements at both the Landmark and VVAC properties.

Security Fund 11

The Security Fund is projecting a 10% increase in expenses this cycle. While some of this increase is due to budget realignment, we are also anticipating additional needs for security staff throughout the year.

Working Cash Fund 12

Similar to last year this fund remains the same.

Bond & Interest Fund 13

The bond and interest fund has a slight increase as the cost of having debt has gone up therefore the fund has 4% increase as the market rates have increased.

Capital Improvement Fund 14

Capital improvement expenses for 2025-2026 will be reduced compared to the same period last year, with some expenses from the previous cycle carried over for various reasons. The largest projects planned include work at Bettenhausen and Centennial Parks, as well as asphalt improvements at various sites throughout the District. Additional details on these projects can be found in the capital improvement narrative.

As in previous years, we anticipate selling annual bonds in the fall to continue providing capital revenue for the District.

Water Park Fund 15

For the 2025-2026 cycle, White Water Canyon Water Park is projecting a 20% increase in expenses. As with any major asset, periodic investments in maintenance and capital improvements are necessary. This cycle, planned projects include replacing shade structures throughout the site, replacing boilers, upgrading the deep well sump pump, replacing the VFD pump and completing various other upgrades.

The water park also has the highest seasonal staffing costs, which have recently reached the \$15 minimum wage threshold required by Illinois law. While staffing costs will continue to rise over time, the rate of increase is expected to slow compared to the past five years.

Each year, capital expenses at the water park are the primary cause of fluctuations in the overall budget for Fund 15. With the facility now over 20 years old, ongoing repairs and upgrades will continue to be necessary in future cycles.

Remediation Fund-Formerly TP Mental Health Site Fund 23

The Remediation Fund has been carried over into the 2025-2026 budget with only minor adjustments, such as the removal of expenses like the insurance policy that was purchased in the previous cycle.

As of the end of the last fiscal year, approximately 30% of the allocated funds had been spent, while over 90% had been committed. Billing typically lags by about 30 days and is expected to continue throughout the 2025-2026 cycle. It is anticipated that additional funds will be needed and requested from the State of Illinois.

If additional funds are received, a supplemental budget will be created to accommodate any necessary adjustments. This process was also followed in the 2023-2024 cycle after receiving new funds and incurring related expenses.
