From our Board of Commissioners:

**Lisa O'Donovan, Bernie O' Boyle, Marie Ryan,
Ashley Rubino, and Lisa Butler**

It's Coming Down!

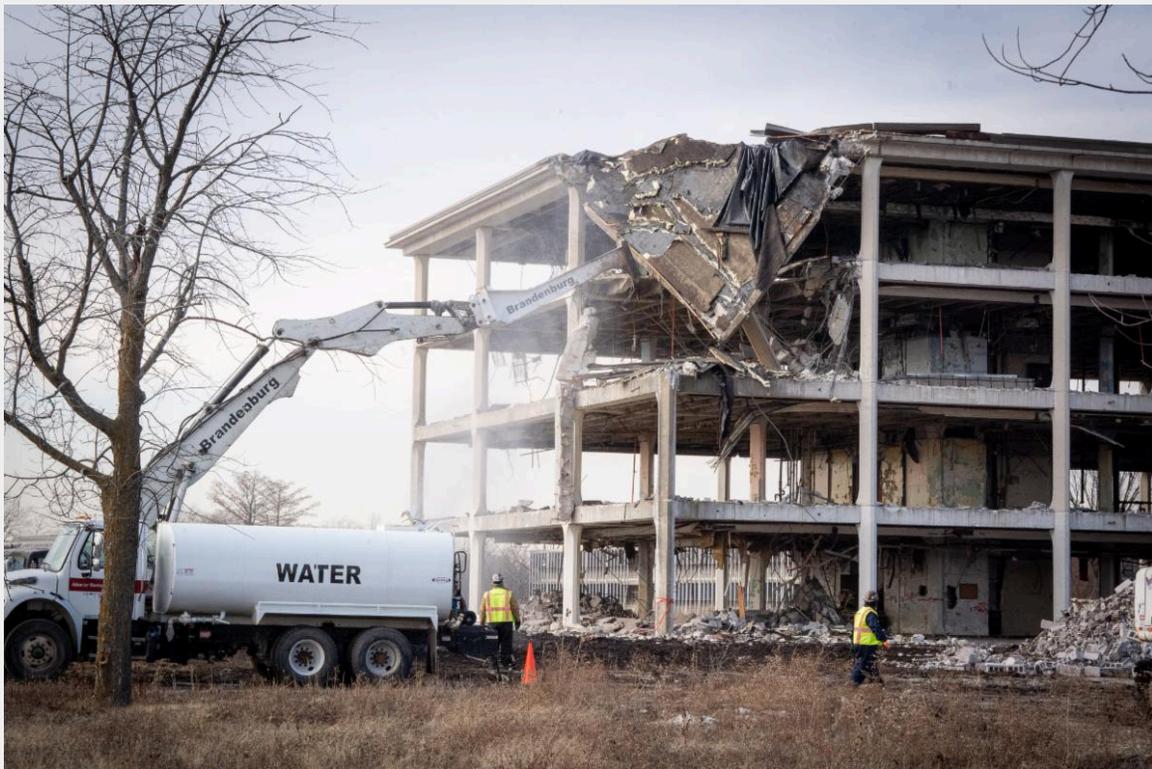

With a stretch of warmer weather earlier this month, you may have noticed crews are working quickly at the old vacant property. Maple Hall, the multi-story building on the southeast corner of the site, is currently being demolished and is expected to be fully razed next week.

Buildings will continue to come down as our contractor, Brandenburg Industrial Service Co., works methodically to remove regulated materials in the vacant buildings and demolish each one.

By the end of this Phase 2 of our cleanup, nearly every single old building on the 280-acre property will be knocked down.

While this work is taking place, asbestos air monitoring and demolition dust monitoring will continue to be performed on site by contractor True North Consultants to ensure the cleanup continues to be safe for the surrounding community.

In addition, the close out of the work performed under Phase 1 is also continuing on site by the previous contractor, Omega III LLC.

State Funding Secured

We recently secured an additional \$18 million in state grant funding to ensure we can complete this extensive cleanup of the site, which was owned by the state of Illinois for decades.

The funding will cover Phase 2 of the environmental clean-up as well as the work our experts will conduct with the Illinois Environmental Protection Agency to prepare the land for redevelopment.

The funding ensures we can conduct a safe, thorough cleanup for our community – without asking our residents to foot the bill!

Stay in the Know

Learn more about the cleanup through our community-driven Remediate 280 Committee that convenes monthly to discuss the state-funded cleanup in more detail. Find the schedule on our [website](#).
