Ashley Rubino, and Lisa Butler**

Take a look at the demolition work happening at Oak Hall and the work being done at the site of the property's iconic round building, Spruce Hall.

Demolition Work

Last week, crews started demolition of Oak Hall along 183rd Street, which is the latest building to be razed on the southeast corner of the vacant site.

Our contractor, Brandenburg Industrial Service Co., continues to work expeditiously to complete Phase Two of cleanup. Other work that has been completed at the site includes demolition of tunnels alongside Harlem Avenue, placing clean fill in a reservoir and remediated lime pits, and continued removal and safe disposal of demolition debris from the property.

By the end of Phase Two of our cleanup, nearly every single old building on the 280-acre property will be knocked down!

Safeguarding Our Community

While cleanup is taking place, asbestos air monitoring and demolition dust monitoring continues to be performed on site by contractor True North Consultants.

This monitoring will continue throughout the duration of cleanup to ensure the safety of the surrounding community.

IT'S GOING DOWN!

\$18 MILLION
MORE STATE FUNDS
SECURED
FOR **SAFE CLEANUP!**

Safeguarding Taxpayers

The additional \$18 million grant from the state of Illinois is moving quickly through the state's process to help ensure we complete a safe, thorough cleanup for our community – without asking our residents to foot the bill!

The funding will cover Phase Two of this extensive environmental clean-up as well as the work our experts will conduct with the Illinois Environmental Protection Agency to prepare the land for redevelopment.

Learn more about the cleanup through our community-driven Remediate 280 Committee that convenes monthly to discuss the state-funded cleanup in more detail. Find the schedule on our [website](#).

You can also find a helpful guide of frequently asked questions about the clean-up work on [our website](#).
