

THERE'S MORE TO **LOVE** AT TINLEY PARK - PARK DISTRICT

August 2026

Get the latest news on our cleanup project below!

From our Board of Commissioners:

**Lisa O'Donovan, Bernie O' Boyle, Marie Ryan,
Ashley Rubino, and Lisa Butler**

When the water tower went down, our drone was in the air to capture this exciting development – check it out above!

Major Milestone

Demolition work at the 280-acre site reached a significant milestone recently with the successful removal of the old water tower. This follows the recent teardown of the adjacent powerhouse and ongoing work to clear over 5,600 linear feet of underground tunnels, as contractor Brandenburg Industrial Service Co. is actively

carrying out Phase Two cleanup operations, which are expected to wrap up by the end of the year.

Environmental and public safety monitoring continues at the site, with True North Consultants conducting dust monitoring to protect the health and safety of the surrounding community throughout the cleanup.

Exciting Progress

The old water tower coming down is just the latest in a long list of work that has happened at the site over the course of our cleanup.

As Phase Two of work moves along quickly, our expert team has also begun the last phase of this extensive environmental cleanup. This phase of the process consists of our experts working closely with the Illinois Environmental Protection Agency to prepare the property to be approved for redevelopment, including any additional environmental testing that is necessary for IEPA to give it the stamp of approval to move forward with redeveloping the site.

All phases of this project are being paid for entirely by state grant funding, ensuring that a safe and thorough cleanup is complete without asking our community to foot the bill!

Learn more about the cleanup through our community-driven Remediate 280 Committee that convenes monthly to discuss the state-funded cleanup in more detail. Find the schedule on our [website](#).
