Lisa O'Donovan, Bernie O' Boyle, Marie Ryan, Ashley Rubino, and Lisa Butler

Phase Two Winds Down

This week, another demolition began at the site as we count down to the last buildings left to be knocked down as part of Phase Two of our cleanup. The water filtration building is the latest building being razed, with only a handful of buildings remaining left to be demolished on the 280-acre site.

Environmental and public safety monitoring continues at the site, with True North Consultants conducting dust monitoring to protect the health and safety of the surrounding community throughout the cleanup.

Last Stage of Cleanup

As demolition work nears completion, our experts are also working on the last phase of cleanup, which is the work we must do with the Illinois Environmental Protection Agency to prepare the property to be approved for redevelopment. This last phase of cleanup will include any additional environmental testing that is necessary for IEPA to give it the stamp of approval to move forward with redeveloping the site.

All phases of this project are being paid for entirely by state grant funding, ensuring that a safe and thorough cleanup is complete without asking our community to foot the bill!

Learn more about the cleanup through our community-driven Remediate 280 Committee that convenes monthly to discuss the state-funded cleanup in more detail. Find the schedule on our **website.**

You can also find a helpful guide of frequently asked questions about the clean-up work on **our website.**
